GitHub: github.com/victoriamcn **Portfolio:** <https://www.victoriamcodes.com/>

Full stack web developer leveraging background in graphic design to provide unique perspectives on how end-users interact with websites and software platforms. Strengths include UI/UX design, creativity, teamwork, and debugging.

TECHNICAL SKILLS

MERN Stack, MongoDB, React, Apollo GraphQL, JavaScript ES6+, Express.js, JSON Web Token, Node.js, Pair Programming, Model-View-Controller, Object-Oriented Programming, jQuery, Handlebars.js, CSS3, Bulma.css, Tailwind CSS, DaisyUI, Bootstrap, HTML5

OTHER SKILLS

Agile Methodology, Adobe Creative Suite, SAP Systems, QuickBase, Microsoft Office Suite

PROJECTS

OCDetour | github.com/jsnicholas/OCDetour | ocdetour-4111fd1eff32.herokuapp.com/

- OCDetour is an app to help delay compulsions for people with OCD. Leveraging research published in the journal of Behavioral Analysis, OCDetour utilizes the concept of delay discounting.
- As one of the two front end developers, we implemented React, JavaScript, Tailwind CSS with DaisyUI and custom CSS to build the client side.
- I constructed the create activity form page, assuring responsive design, to dynamically render an image, timer amount, title and description on the user dashboard once the submit button is clicked.

LaborHub | github.com/jsnicholas/LaborHub | laborhub.herokuapp.com/

- LaborHub allows users to share their wages, demographics data, and check if dues are paid to empower workers. Users pay their dues through the PayPal REST SDK API.
- LaborHub was built in collaboration with three other software developers. We followed Agile methodology practices while implementing the Model-View-Controller paradigm.
- As the front end developer, I designed the app with mobile-first design with a minimal yet modern design through Spectre.css with custom CSS, Handlebars.js and JavaScript.

NightOwl | github.com/victoriamcn/NightOwl | victoriamcn.github.io/NightOwl/

- NightOwl is an application that makes event and dining recommendations based on the user's location and selected preferences through the Ticketmaster Discovery API and Local Business Data API.
- Inspired by nightlife, I created the interface with Bootstrap and custom CSS, such as animating the result cards and links to flicker like neon when the mouse hovers over it.
- I ensured that the compiled API data was structured and designed for the user to quickly read through and select from their recommendations.

Coding Quiz | <https://github.com/victoriamcn/Timed-Coding-Quiz> | <https://victoriamcn.github.io/Timed-Coding-Quiz/>

- The quiz app displays questions, processes user answers, manages the timer, calculates scores, and saves scores to local storage.
- I designed the interface for the quiz application custom CSS, inspired by vintage Super Mario Bros games.
- I develop the functionality for the quiz application with javascript and localStorage API. After completing the quiz, the user may save their score and initials to view and compare it with other players' scores within that browser session.

EXPERIENCE

Project Analyst at Pike Engineering, LLC | NOV 2020 - Present

- Analyze data needed for project requirements, including identifying environmental concerns at the project site and verifying customer billing information.
- Track and analyze productivity data on the multi-million dollar LED Upgrade Project with Duke Energy.
- Trained two other project analysts in different departments

Implementation Specialist at Find Great People, LLC | NOV 2019 - NOV 2020

- Coordinate implementation meetings with clients, programmers, underwriters, payroll vendors, and the sales department.
- Initiated team collaboration during quarantine to copy edit and revise company documents, such as internal training guides and external client presentations.

Concierge at The Spa at West End | MAR 2019 - NOV 2019

- Develop social media content for the spa's services, products, and events.
- Anticipate spa and salon guest concerns and address them immediately.
- Managed social media content and email content for facial and make-over event that generated fully-booked event and \$300 over sales goal for event

Freelance English Teacher in the Czech Republic | SEPT 2018 - FEB 2019

- Develop cross-cultural communication skills for all students.
- Adapt teaching methods and instructional materials to meet students' varying needs, abilities, and interests.
- Evaluate students' work to determine progress.

Marketing Intern at Ridge Haven Camp and Conference Center | MAY 2017 - AUG 2017

- Create content for social media and company websites.
- Analyze data on competitors and their marketing methods.
